ABOUT YOUR INSTRUCTOR:

Jan Johnson is retired from the State of Florida with over forty years experience in law enforcement. After ten years with the F.B.I., Jan made the transition to crime scene analysis. She is recognized by the IAI as a Certified Senior Crime Scene Analyst and worked for the FDLE in Pensacola for over twenty-two years. As a laboratory analyst and crime scene examiner, her field of experience includes detection, collection, and preservation of physical evidence, bloodstain pattern interpretation, trajectory analysis, buried body and skeletal remains recovery, clandestine laboratories, and other numerous procedures involving crime scene investigation. Due to her expertise in bloodstain pattern interpretation and crime scene reconstruction and analysis, Jan has testified in over one hundred criminal cases as an expert witness. Before retiring in 2004, Jan spent three years with the Escambia County Sheriff's Office where she was supervisor of the Crime Scene and Latent Print units, as well as overseer of ECSO's new crime lab, which she designed. Jan served in the highly distinguished role of President of the IAI in 2004, and Chairman of the Board in 2005, and considers herself as having the privilege of being on the IAI's original Crime Scene Certification Board. Jan also served as President for the Florida Division of the IAI as well as Chairman for the BOD in 2008. She continues to serve on numerous committees with both the IAI and FDIAl. Jan has taught numerous courses in the areas of both Crime Scene and Bloodstain Pattern Interpretation in the United States and abroad, including South Africa, Brazil, and Bermuda.

(561) 997-9500**

CSI CERTIFICATION

EXAM BOOK REVIEW, LEVEL I & II

BOCA RATON POLICE SERVICES

NOVEMBER 15-18, 2010

COURSE DESCRIPTION:

The number one reason why most crime scene investigations fail is that there is inadequate crime scene processing. Working a crime scene, whether minor or major, is a process that involves a wide range of skills. This course was developed as a refresher workshop for some crime scene officers, or for the new officers with limited exposure and experience in crime scene processing. The detection, collection, documentation and preservation of physical evidence are key elements involved in every crime scene. This course will help better prepare an individual who is taking the IAI Certification Test by providing and reviewing hundreds of sample questions.

*Test to be administered on final day of course for those who have completed the application form and have been prior approved to take the test for CCSI or CCSA.

Please submit Certification Applications to the IAI 90-60 days prior to the course to be approved to take the exam on the final day.

Note: You do not have to take the certification test on the final day to take this course. You may take the test at a later date

COURSE TOPICS:

Crime scene safety, equipment needs, scene security, photography, search techniques, note taking, general documentation of physical evidence, sketching, measurements, biological evidence detection and collection, trace evidence, latent impression evidence, shoe and tire track evidence, tool mark evidence, firearms evidence, proper evidence packaging techniques, report writing, mock crime scenes and court room testimony.

WHAT TO BRING TO THE COURSE:

Casual attire is suitable; and a laptop computer would be highly recommended.

WHO SHOULD ATTEND:

This course was designed to assist in the preparation for the IAI Crime Scene Investigator Certification- Level I or II examination. Please make sure that you have read the new books as of August 1, 2008. Please see the IAI website at www.theiai.org for current books to read, certification application, and requirements.
