August 14, 1979

Dear Members and Guests:

I would like to take this opportunity to welcome you to the Florida Division I.A.I. 20th Annual Conference. I know it will be a most knowledgeable and enjoyable meeting. Our hosts have worked diligently to make this one of the best conferences we have ever had.

The quality of service we render to society is enhanced by the interchange of information and ideas among our various elements. This objective is certainly encouraged by conferences such as this, which promote higher levels of professionalism, as well as closer personal relationships and understanding.

It is my sincere hope that each of you will gain additional knowledge here and this knowledge be translated into a better service for our fellow citizen.

Sincerely,

Jim Murray
President

20TH ANNUAL TRAINING CONFERENCE

FLORIDA STATE DIVISION

of the

INTERNATIONAL ASSOCIATION FOR IDENTIFICATION

It is with a great deal of personal pleasure and professional pride that I welcome the officers and conferees of the Florida State Division of the International Association for Identification to the City of Lakeland on the occasion of your 20th Annual training conference.

Within the law enforcement profession the day to day challenges that are faced by each agency in the investigation of crime and criminality are dealt with, assuredly, on a more effective and successful basis as a direct result of the expertise and dedication of the men and women who have chosen identification technology and forensic science as their vocation.

The program that has been prepared for your 20th Annual training conference is purposely varied throughout the entire realm of identification services. This conference will permit each and every one of you a singular opportunity to return to your assignments better informed in many new approaches to scientific criminal investigation.

Again, it is my distinct pleasure and that of the Department to welcome you to the City of Lakeland and I trust that your brief visit will be professionally rewarding and socially refreshing to each of you.

With every good wish for your continued personal and professional development, I remain,

Most Cordially,

HERBERT WM. STRALEY, JR.
CHIEF OF POLICE

October, 1979

JOE SHEPPARD
SHERIFF — HIGHLANDS COUNTY

POST OFFICE BOX 71

President, Members and Guests
Florida Division
International Association for Identification

Welcome:

It is with a great deal of pleasure that I welcome the Florida Division of the International Association for Identification to the 20th Annual Educational Conference to be held in Lakeland.

Your annual conference will bring together many representatives of your profession and I invite you to participate in each segment of this interesting and informative program.

If I can be of assistance while you are here, by all means make your wishes known. I am confident that your participation in this conference will be both enjoyable and rewarding.

Sincerely yours,

JOE SHEPPARD
Sheriff, Highlands County

POLICEFAX®

Portable Fingerprint (FAX) Transmitter

general description

The DATALOG Portable Fingerprint Transmitter is ideal for law enforcement applications, where portability and rapid transmission of fingerprints is of paramount importance. The unit is fully compatible with both domestic Policefax and Interpol specifications. Rugged construction and a protective carrying case plus fully solid-state circuitry ensure high reliability. The small physical dimensions of the equipment allow it to be placed directly under a seat when flying in commercial aircraft. The portable transmitter will transmit a conventional fingerprint card in either 9 or 14 minutes via conventional domestic voice grade telephone channels.

LASER LATENT FINGERPRINT DETECTOR SYSTEM — MODEL LPD-20

The Model LPD-20 is the only **complete** laser latent fingerprint detection system currently available. It contains all the necessary equipment to detect latents, including a 20-watt argon-ion laser — the highest power such unit on the market — and a flexible beam delivery optics package.

This system already has been utilized to detect latent prints by several central Florida crime laboratories, sheriff's offices and city police departments.

Well trained career officers are always the best prepared for advancement through appointment or written examination. Our training can open the doors of advancement for you.

The American Institute of Applied Science, formerly the Institute of Applied Science, founded in 1916, has been preparing ambitious police and security officers in the vital techniques of Civil and Criminal Identification and Investigation since its founding.

Prepared by qualified experts in their own areas of expertise, our course is considered to be one of the finest. Many departments sponsored enrollments at test to the recognition given the A.I.A.S. course.

Our training in the science of fingerprint has been accepted by the Expert Certification Board of the International Association for Identification and as a part of the required training curriculum of the U.S. Army Crime Laboratory at Fort Gordon, GA.

Licensed by the New York State Education Department.

FP110 INKLESS FINGERPRINTER

DACTEK FINGERPRINTS
F.B.I. ACCEPTED

GSA CONTRACT GS-01S-06737

DACTEK FP 110 is a lightweight, portable, self-contained inkless fingerprinting system that employs two chemicals, one in the pad, and the other in a developer spray. During the fingerprinting process, the two chemicals combine and develop black, permanent, non-smearing, contrasting and definitive print impressions. These prints are acceptable by the F.B.I. for classification, search, and retention.

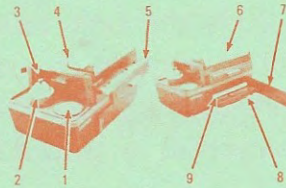

HOW DOES THE FP110 SYSTEM WORK?

1. Roll or press fingers on the Special Pad, and the fingerprint card.
2. Place the card into the developer drawer and close.
3. Press the red button, and hold it down for about two seconds.
4. Remove card from drawer after a few seconds. Fingerprints are fully developed, and may be handled immediately.

The Special Pad is constructed to meter the precise amount of Special Pad solution to the pad surface, and to the fingers. The pad will accommodate palm-printing if desired.

FP 110 SYSTEM INCLUDES:

- 1 - Cabinet compartmented
- 1 - 12 oz. can of Fingerprint Developer
- 1 - 4 oz. bottle of Special Pad Solution
- 1 - Inkless Fingerprint Pad
- 1 - Instruction Manual and Warranty Card

GSA CONTRACT GS-01S-06737

FP 110 SYSTEM FEATURES:

- | | |
|----------------------------|--|
| 1. Filtration System | 6. Cardholder (Extra) |
| 2. Developer Spray | 7. Locking Door to Storage Compartment |
| 3. Developer Chamber | 8. Special Pad |
| 4. Carrying Handle | 9. Fingerprint Card Storage |
| 5. Steel Developing Drawer | |
- Length: 15 1/4 inches
Width: 9 1/4 inches
Height: 8 inches
- Weight:
Without cardholder: 10 lbs
With cardholder: 11 lbs

The FP 110 is warranted for one full year on materials, parts and labor. The Special Pad is warranted for 90 days on materials, parts and labor.

Code of Ethics

As a member of the International Association for Identification and being actively engaged in the Profession of Scientific Identification and Investigation, I dedicate myself to the efficient and scientific administration thereof in the interest of Justice and the betterment of Law Enforcement.

To cooperate with other men of the Profession, promote improvement through research, and disseminate such advancement in my effort to make more effective the analysis of the expert.

To employ my technical knowledge factually, with zeal and determination, to protect the ethical standards of the Profession of Scientific Identification and Investigation.

I humbly accept my responsibility of Public Trust and seek Divine guidance that I may keep inviolate the Profession of Law Enforcement.
