## Blood Chemical Enhancement

*Presenter: Nancy Sulinski-Steffens*

FDIAI Region 3 Director

This course will focus on locating, documenting and chemically processing bloodstained evidence on various substrates. This course will provide both lecture and hands on techniques for proper processing of porous and non-porous surfaces, best practices for presumptive tests and techniques for chemical search methods including Bluestar Forensic and Luminosity.

Date: October 16, 2019 0900-1600 hours

Location: Lakeland Police Department

219 N Massachusetts Ave, Lakeland, FL 33801

Space is limited to 30 attendees

RSVP TO: Nancy Sulinski-Steffens, Region 3 Director
