

FDIAI 2010 Annual Training Conference

40 hr Advanced 10-Print Workshop

REGISTRATION FORM

To enroll in this course, please complete the below registration form and submit via FAX to 954-756-8158

We are pleased to announce that this year's conference will include the "Advanced Fingerprint Science for Ten-Print Examiners Workshop."

This 40 hour workshop will take an in depth look at the advanced aspects of Tenprint Examination. We will take an adventure into the history of fingerprints, how to handle scars/amps/intentional mutilations, and recording neat and legible major case/elimination prints. What is ACE-V and what relevance does it have to the science of fingerprints? How does the advent of computers and explosion of technology affect Tenprint examiners? How should you prepare for court and what should you expect? This workshop will answer these important questions with relevancy to Tenprint examination. This workshop also will present an overview of the Ten-Print Certification process.

This workshop will be limited to twenty-five (25) students. A certificate of training will be issued to students upon completion of the workshop. This workshop will provide for 40 hours of continuing education credit required for I.A.I. certification and recertification. The workshop is structured for individuals who have completed a Basic Fingerprint Science training program or those who are currently employed as a Ten-Print Examiner.

Name _____

Position _____

Email Address _____

Agency _____

Address _____

City _____ State _____ Zip Code _____

Phone Number _____

Please select the appropriate response:

Yes No

Presently employed in the fingerprint field?

If Yes, number of years

Yes No

Are fingerprint comparisons your primary work duty?

Fingerprint Training Received. Please check appropriate box:

On the job training

Trained and worked with experienced fingerprint analyst

Completed a structured training program
