## Photography Fundamentals

*Presenter: Hannah Miner, DFS, MS, CCSA*

Photography can be challenging for crime scene investigators. This presentation introduces current and prospective CSIs to the fundamentals of crime scene photography. Students will learn about different types of cameras and become familiar with various camera modes and settings, as well as how they are applied to scene documentation. The course also covers essential equipment and the cardinal rules of photography to help students capture accurate and effective images. In addition, practical exercises are included to promote hands-on learning and to help students develop confidence in troubleshooting and operating their cameras.

\*\*\*Approved for 8 hours IAI Crime Scene Cert/Recert credit\*\*\*

**Date:** June 24, 2026 0800-1700 hrs
